***Allowable Subject Matter***

Applicant has cancelled the composition claims and added a product-by-process claim directed to an airbag derived from a method of a preceding claim.

In an updated survey of the prior art, the Examiner discovered yet another reference, U.S. Patent Application Publication No. 2003/0211340 (hereinafter '340) that discloses a composition similar to that outlined by the claims. Further, in this instance, the composition is employed in the manufacture of airbags but there is an important distinction between the airbags of the prior art and that of claim 6. The airbag of the prior art is of the hollow weave type wherein the entire exterior surface of the bag is coated with said composition. This is done because, unlike bags of the plain weave type disclosed in the present Specification and in JP 2001-1854, made of record in this prosecution, the interior walls are not coated with a polymer and so gas leakage is problematic. As to the issue of whether it would have been obvious to replace the adhesive agent applied to the peripheral portions of the airbag in the aforementioned Japanese document with the coating composition taught by '340, the Examiner sees nothing that would motivate the skilled artisan to carry out this particular modification to arrive at the instant invention. Insofar as the art cited herein represents the closest known, but fails to even render obvious the instant invention, claims 1-3 and 6 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
